**Background Information**

Edgenuity is a computer-based learning platform which provides individualized learning paths for students. Edgenuity includes grade level, content area specific lessons as well as test prep for STAAR/EOC, ACT, SAT, GED, and TSI for 6-12 grade students. Edgenuity also includes MyPath content, which provides grade level intervention instruction for 6-8 grade students testing as low as 3rd grade. As a cloud based platform, Edgenuity can be accessed from many different devices and can be accessed by students from home, if desired, and Duncanville ISD can create custom content within the platform as well. Training for Edgenuity began in the Fall of 2016 and was piloted in the spring of 2017 for credit recovery, test readiness, intervention, and virtual learning with the intent of replacing the current APEX program.

Duncanville ISD is proposing Edgenuity under a three year contract for all high school, middle school, and intermediate campuses for an unlimited number of student users. The proposed contract includes all content except for dual credit, 14 days of onsite professional development, media content server, integration services, and MyPath. If approved, Edgenuity will be implemented to begin the 2017-2018 school year.

The proposed service as quoted will be payable in two equal payments in years 1 and 2, with no payment due in year 3.

- Year 1: $249,650.00  
- Year 2: $249,650.00  
- Year 3: $0  

**Total** - $499,300.00
