Legislative Priorities

Overview
Leander ISD seeks a partnership with our Texas legislators to focus on supporting all students, to advocate against unfunded mandates, and to empower communities and taxpayers through local control.

Safety

Student Data Privacy
- We support requiring the Texas Education Agency (TEA) and technology vendors doing work with schools in Texas to de-identify students by masking all student data.

Facilities and Improvements
- We support allocated, additional funding to support school districts who implemented safety enhancements to school facilities.

Education

Accountability
- We support flexibility of the accountability system to allow masters level and college entrance exams to replace certain High School End-of-Course exams.

- We support student choice for replacing end-of-course exams with the implemented substitute exams by recognizing high performance on qualifying exams as the “Masters” level for accountability.

Mental Health
- We support increasing funding for staff and professional development necessary to provide mental health-related services.

Special Education
- We support the refinement and clarification of SB 507 to ensure the purpose of cameras in special education classrooms for suspected abuse only.

- We support protecting students and parents by ensuring special education advocates and hearing officers adhere to ethical standards and possess qualifications in Texas law and special education prescribed by the Texas Education Agency (TEA).

Legislative Priorities

Dual Credit and Career Technical Education (CTE)
- We support additional flexibility and funding to ensure a plethora of opportunities for all students to earn college credit.
- We support increasing funding and weights for CTE programs with high demand and high paying industries as defined by the Texas Workforce Commission.

Finance

TRS and Teacher Health Care
- We support adjustments to increase state funding for teacher healthcare and retirement fund.
- We support maintaining the defined teacher benefit retirement system by not shifting additional costs to teachers, school employees or school districts.

Funding
- We support keeping all public education dollars, including recaptured funds, allocated for public school students.
- We support modernizing the school funding weights, allotments and adjustments, such as the Cost of Education Index, to support the true cost of educating Texas students.
- We support requiring the state to share the costs of funding public schools by providing at least 50 percent of Foundational School Program formula to reduce over-reliance on local property taxes.
- We support maintaining the one-year lag in the use of state property values under any new school finance plan.

Local Control for Election
- We support the current system of flexible uniform election dates for bond and tax ratification elections to not put an undue financial burden on taxpayers and to align with district budget cycles.
